

Sensor
Device(s)

The diagram illustrates a central processing unit (teal box) connected to three peripheral components (pink boxes). The central box contains the text: 'Main Processor', 'Sensor Apps/Agents/etc', 'Operating System', and 'Networking Stack'. It is connected to a pink box on the left labeled 'Sensor Device(s)', a pink box at the bottom labeled 'Wireless interface(s)', and a pink box on the right (partially visible) labeled 'Network'. All boxes have a dotted pattern.
